

CloudSaver Tag Manager

A Unique Cloud Offering to Expand your MSP Solution Portfolio.

Onboard and administer a robust multi-cloud tag management solution for all your clients.

Provide immediate client value with out-of-the box tag intelligence reports and intuitive self-service tools.

Enable new cloud functionality like showback/chargeback, and deeper cloud cost optimizations.

Increase your margins with monthly partner compensation as you remediate your clients' cloud tag issues.

Enable Deeper CloudOps Functions, Accelerate Time to Value, and Increase Revenue with CloudSaver Tag Manager.

A purpose-built tag solution for clients, service delivery teams, and MSPs.

Client Value	Service Delivery Value	MSP Value
 <p>Find and Fix Tag Issues in a Fraction of the Time</p> <p>Identify tag issues across regions, accounts, and CSPs with out-of-the-box, real-time reports. Make native CSP tag changes inline or in batches. Harmonize and consolidate tag syntax issues in seconds.</p>	 <p>Seamless Client Setup, Onboarding and Administration</p> <p>The MSP admin portal makes it easy for service delivery teams to connect client accounts, manage permissions, and set up payments. Service delivery teams can also perform tag changes on each client's behalf.</p>	 <p>No Partner Costs or Fees for You to Absorb</p> <p>Tag Manager is free for you to distribute and administer to your clients. There are no up-front or annual fees. Clients are only charged a small fee for each tag change made to their environments with the tool.</p>
 <p>Manage Tag Policy and Compliance at Scale with Tag Automation</p> <p>View and create tag policies that work across CSPs. Monitor and self-remediate tag compliance. Manage tag access and control with granular user permissions. Implement multi-cloud variant group tag automation.</p>	 <p>Multiple Support, Learning, and Training Options</p> <p>Knowledge base articles and training videos are available to enable service delivery teams and clients. T1 or T2 support can be provided and administered by CloudSaver or by the MSP through the MSP admin portal.</p>	 <p>Generous Partner Compensation Based on Client Consumption</p> <p>You as the MSP will receive recurring monthly partner compensation for each client based on their consumption. Increase your margins and grow your revenue as your clients clean up their cloud environments.</p>
